

No Matter the Path You're On, Serra Health Can Help You Reach the Summit

*Our mission is
your success.*

ABOUT US

We're about our mission: your success. It's our single-minded focus. Supported by smart people who approach business with a passion for excellence and a darn good sense of humor.

The Serra Health team brings together over 100 combined years of healthcare IT consulting experience. We wanted to take our experience and build something unique to the market: a boutique firm with all the experience and capabilities of the big guys, but with none of the high overhead costs.

Real people, reliable results, reasonable cost. That's Serra Health Consulting.

WHY SERRA?

We recognize that today there are more choices in vendors than ever before. We formed Serra Health to provide the experience that we know our clients want, but so rarely find: a firm that's small enough to meet the ever-changing needs of their clients in a flexible and approachable manner, but large enough to consistently deliver results. And we know that ultimately, it's the results that matter.

OUR APPROACH

As a smaller firm, we have the flexibility to develop creative solutions tailored to your specific situation. And we've developed the infrastructure to ensure consistent quality of work: dedicated project oversight and standardized methods for each of our service offerings.

When it comes to designing a solution, we apply a boutique approach so that you get the consulting assistance you want and need, with no fuss or smoke & mirrors.

SERRA'S SERVICE OFFERINGS

We know healthcare IT projects are exhausting endeavors, feeling more often than not like one is pushing a boulder up a mountain with no end in sight.

Our services are designed to help ease this burden and support your success in some of the more challenging healthcare IT areas. We provide expertise across all major clinical systems vendors, focusing our expertise on these five core offerings:

Smart Staffing

Flexible staffing solutions for your implementation, support, and optimization needs.

Ascent Data Management

Leading you to your peak goal: a true data-driven organization.

Sherpa Advisory

Experienced guides to keep your projects free from hidden pitfalls.

Traverse Affiliate Services

Achieve predictable results with our proven affiliate provider methodology.

Summit Optimization

Our unique methodology will get your optimization program up and running.
