

Be Environmentally Responsible: Use Our Locally-Sourced Resources for Your Epic Project Staffing Needs

Real People. Reliable Results. Reasonable Cost. That's Serra Health Consulting.

Finding the right resources at the right time is critical to the success of any Epic endeavor. Serra Health Consulting offers a unique range of Epic staffing and consulting solutions to address the specific needs of each unique organization.

Over the past 15 years we've built a database of over 70,000 healthcare IT consulting resources, 20,000 of which are experienced Epic consultants. This allows us to provide our clients with local talent in most cases.

We've learned after 20 years and dozens of implementations that an army of consultants does not ensure a project coming in on time and on budget. We tailor our solutions to get you the right number and type of resources to fit your project and budget requirements.
